

The Internet

The background is a dark teal gradient. On the left side, there are several large, out-of-focus circular bokeh lights in shades of teal and light blue. On the right side, there is a network of glowing nodes connected by thin, light blue lines, suggesting a digital or network theme. The nodes are small circles of varying brightness, and the lines are thin and slightly blurred, creating a sense of depth and connectivity.

What is internet ?

OFC

Optical Fiber Cable

- Data transferred in Speed of lights
- Continets are connected by this cable Map
